VTT PROFIX[®] Lifting Belts

Belts that are absolutely safe !

Compact and sturdy:

VTT PROFIX lifting belts with increased edge stability for loads of up to WLL 10 tons.

Guaranteed to be reliable and long lasting

By making use of the VTT PROFIX lifting belt, you are putting your trust in a high-tech product that has achieved worldwide recognition and which is manufactured in every respect to provide the highest degree of reliability and resistance to wear. That guarantees you load lifting that is absolutely safe, whether in a factory or storeroom, or when loading and unloading - and all that at a first-class cost-performance ratio!

High efficiency construction for continuous loading

Very compact design and a new processing technique for the webbings are what give VTT PROFIX lifting belts their high degree of flexibility. Optional impregnation with polyurethane. A specially woven edge protection and reinforced loops all give protection from abrasion and damage. It is that what guarantees an extremely long service life.

„Swiss Quality“ for maximum safety

VTT PROFIX lifting belts are manufactured and customized from start to finish at VTT. This permits a precise degree of quality control and our lifting belts fulfil all the standards relating to safety (EN1492). Well thought-out details, such as a sewn-in label and woven-in maximum load threads, even indicate a belt's loading capacity if its surface is very dirty

VTT-PROFIX® Lifting Belts, up to WLL 10 t, EN 1492-1, Safety factor 7:1*									
item number	Total length (m) (always provide 3-digit with item number and belt type)						color	capacity WLL	width
